U.S. DEPARTMENT OF ENERGY
BEFORE THE
BONNEVILLE POWER ADMINISTRATION

2009 TIERED RATE METHODOLOGY)	Docket Number	TRM-12S
SUPPLEMENTAL RATE CASE)		
)		

**ORDER GRANTING PETITION TO INTERVENE
AND AMENDING SERVICE LIST**

By Federal Register Notice dated May 29, 2009 (Vol. 74, No. 102), Petitions to Intervene in this proceeding were required to be filed by 5 p.m., Pacific Time, on June 2, 2009. Parties to BPA's 2008 Power Tiered Rate Methodology Rate Case (TRM-12) did not need to intervene again in this reopened proceeding and were automatically granted party status.

On June 16, 2009, Cascade Steel Rolling Mills, Inc. submitted an untimely Petition to Intervene in this proceeding. On June 17, 2009, the Hearing Officer issued Order TRM-12S-HOO-04 establishing a deadline of 5 p.m., Pacific Time, on June 19, 2009, for parties to object to the Petition. No objections to the Petition were received by the filing deadline.

Late Petitions to Intervene are governed by Section 1010.4(c)(2) of Bonneville's Rules of Procedure Governing Rate Hearings ("Rules"):

Late interventions are strongly disfavored. Granting an untimely petition to intervene must not be a basis for delaying or deferring any procedural schedule. A later intervenor must accept the record developed prior to its intervention. In acting on an untimely petition, the hearing officer shall consider whether: (i) the petitioner has a good reason for filing out of time, (ii) Any disruption of the proceeding might result from allowing a later intervention, (iii) The petitioner's interest is adequately represented by existing parties, and (iv) Any prejudice to, or extra burdens on, existing parties might result from permitting the intervention.

Cascade Steel Rolling Mills, Inc., ("Cascade Steel") is an industrial steel mill located in McMinnville, Oregon, that purchases power from one of BPA's preference customers, McMinnville Power and Light Company. Cascade Steel states that it recently learned of this proceeding and its implications for the company's recovery from the economic recession. As a result of the recession, Cascade Steel has reduced its level of production and workforce. During recent years of peak production, Cascade Steel accounted for 50 average megawatts of load, but currently utilizes only 23.5 average megawatts of load. Cascade Steel seeks to intervene in this proceeding to assist BPA in reaching a result that will allow the mill to return to full production and rehire laid-off employees.

Cascade Steel agrees to accept the current record and states that its intervention will not cause any delay to the proceeding or any parties. Cascade Steel asserts that no other party can adequately represent its corporate, employee, and customer interests in this proceeding.

Cascade Steel's Petition to Intervene is granted. Cascade Steel has provided a reasonable explanation for its late filing and has established that its interests may not be adequately represented by other existing parties. In accordance with Section 1010.4(c)(2), Cascade Steel must accept the record developed prior to its intervention and the procedural schedule adopted in Order TRM-12S-HOO-06.

The Service List is hereby amended to reflect Cascade Steel's status as a party in this proceeding. An Amended Service List is attached to this Order. The Amended Service List also incorporates minor changes requested by the Benton County Public Utility District, Canby Utility Board, and Pacificorp.

SO ORDERED, June 22, 2009

/s/ Samuel J. Petrillo
